President & General manager Message

In the 21st and past centuries world have made lot off progress in all technologies like Mechanical, Electrical, Chemical, IT, Electronics, Civil, etc. And made progress day by day. Even peoples are trying to spread their vocations at moon. Every country is trying to make his Defense and power plants strong since starting. Since our inception in 1995, ZSSC&P has rapidly developed its capability to become a leading operation, manpower, industrial Equipment& transport services Provider in the field of Mechanical, Electrical, & instrumentation to the petrochemical, oil & gas/refineries, fertilizer plants and steel industries. Based on its excellent safety and performance, highest level of quality standards and proven ability to deliver in time. ZSSC&P has been the long term “partner of choice” of majority of its client at present ZSSC&P employs over 100 qualified personnel deployed on various long-term base load maintenance contracts with SABIC affiliates and other private companies.
Introduction

We introduce our company as one of the major contractor of civil, sanitary and Electro-Mechanical works presently based at Jubail industrial city. We have been also involved in the field of material supply like Electrical mechanical instrument & hardware along with manpower supply. We are also in the field of heavy equipment supply. We have been involved in the execution of different types of civil Geodetic electrical Mechanical and sanitary jobs. The company management and engineering workforce are committed to our customer satisfaction through performance in terms of quality and safety. The main objective of our company is to ensure the best ability by improving our leadership and high standard. We have highly accomplished and competent team comprising with significant experience and to look forward our strategic vision.
**Company Establishment and Services**

ZSSC&P Company is for general contractor was founded in the year 1995 with the motive providing total quality engineering construction in the Middle East to its clients. We are also in the field of Material supply like Electrical, Mechanical Instrument Equipment supply. As a result of ZSSC &P relentless attempts to deliver customers the best ZSSC&P customers list comprise of number companies.

ZSSC&P always adhere to adopt the best engineering method available in the commercial and industrial to meet customer need and to accomplish assignment smoothly and safely. The material used by ZSSC&P is all Saudi Arabian Engineering Standards and approved by the royal commission inspector. This enables ZSSC&P to apply the best quality and engineering Methods. We ensure that our work has 100% guarantee to its client’s quality services at a competitive services. ZSSC&P is mainly in the field of industrial material supply like Electrical, Mechanical, Instrument, Material and Manpower.
Work Force & Future Plan

With the aid of well experienced professionals and dedicated machinery. ZSSC has successfully completed numerous prominent project in Jubail Industrial City as a sub-contractor and it’s currently engages in like projects. Our team consists of highly experienced personnel who are capable providing project management in any challenging environments. ZSSC work forced is always updated with new development and changes are the operation to provide the most effective techniques.

The company future plane is to build strong foundation to create more jobs inside and outside of Kingdom of Saudi Arabia. Nothing that our company looking more job, because our target that this company become one of the big trader and Contractor of Kingdom of Saudi Arabia. The attractiveness of a potential target to a potential acquirer is one of the factors of successful management and a successful plan, so that our management hired a high profile staff and engineers. The company plans to achieve some of these goals but these is not enough for us; we need to established strong organization until we reached up leading the way to become international standard contractor.
Our Vision

To become a prominent diversified business group by working closely with our clients to understand their needs with an aim to provide practical services, products and solutions that are qualitative, valuable & cost effective, through talented individuals, enabled by Information Technology.
Our Mission

Wealth maximization and value creation for the shareholders through identification, evaluation and investing in lucrative and rewarding business opportunities, while maintaining and upholding the cherished values of high business ethics, standards and practices.
Quality Control Program & Policy

The Quality Assurance (QA) and Quality Control (QC) are the great significance to our operation. We maintain high profile representative acceptable to the customer to be present at the work site at all times when construction is in progress and to represent and act with full authority for execution at the work site and also provide full-time quality assurance inspection to the customer satisfaction. Our company has a great excellent regarding quality control program that’s why we improving our high standard value for our customer.

It is explicit policy of our company to provide service to customer and meet their demanding expectation in conformal with the highest standard and highest quality. We have also a Quality trend to monitor our quality effectiveness to ensure the company functions to determine company procedures and guidelines. The management strictly implements quality policy programmed because this is the way to recognize our company in Kingdom of Saudi Arabia. We have also Standard Operating procedure so that to maintain the Quality and standard guidelines. Our total commitment is to enter in international Standard Organization being one of the best companies in Quality Effectively.
STANDRAD AND CODES
Our company providing design and specification for all facilities components, materials and equipment with Saudi Arabia Standards and Specification where they exist. When such standards and codes do not exist then our company may use and specify other internationally recognized standard and codes like ASTM by taking prior approval of the customer client. Our total commitment toward proper and effective implementation of Quality Assurance and Quality control polices is the main factor for our success in industrial and construction business.

SAFETY AND SECURITY PROGRAMME
In line with the policy of the company to build up high performance team and preventing occupational injuries or illness or protection of environment, as well change the behavior of the worker through reasonable support of management.
1. Purpose the goal of all activities is carried out in healthy safe and environmentally responsible manners.
2. Use the material and energy safely and efficiently to ensure safe job completion.
3. Promote a safe work culture and to educate to employee that they embrace healthy safety and environment policies practices and procedure.
4. To continuously improve HSE performance with setting targets.
5. Our objective is the lowest possible numbers of accident injuries and environmental problems.
Safety

Our company is committed to take all kinds of reasonable measure for the safety, health and environment of our workers on each every movement of his works. Safety plays a very important role in construction work: it is our objective to efficiently achieve our construction targets without compromising on safety aspects of our personnel, equipment plant as well as the community.

A good and effective construction safety program will improve the overall performance of the project as well as help in eliminating, minimizing the accident.

Safety and security is an integral part of our daily work activity.

In our company each and every employees will make sincere efforts to reduce the possibility of accident. Its employees strive to achieve our customer’s goals and work to prevent accident and injuries at our client’s sites. Nothing that our commitment towards proper and effective adherence to the implementation of regulation of and instructions concerning environment protection and pollution control.

The proper usage of all protective gears is essential.

Dear Sir,

Referring to your letter dated 23.11.1999, please find attached herewith the Completion Certificate for your part of the Works as per your requirement.

Kindly send a copy of the Completion Certificate by fax after your signature for our records.

Sincerely yours,

DYWIDAG SAUDI ARABIA CO. LTD.
